

Get personalized outfit recommendations based on weather, occasion, and your style preferences. Our AI learns your taste and suggests perfect combinations.

- Weather-based recommendations
- Occasion-specific styling
- Personal style learning

Organize your entire wardrobe digitally with smart categorization, tagging, and search functionality. Never lose track of your clothes again.

- Auto-categorization by type, color, brand
- Advanced search and filtering
- Condition and care tracking

Plan your outfits for upcoming events, seasons, and special occasions. Create outfit calendars and never be unprepared again.

- Event-specific outfit planning
- Seasonal wardrobe transitions
- Outfit calendar integration

Wear Analytics & Insights

Discover your wearing patterns, most and least worn items, and get insights to optimize your wardrobe and shopping decisions.

Visual Outfit Capture

Take photos of your outfits, save your favorite combinations, and build a visual diary of your style evolution over time.

Color & Style Matching

Advanced color theory and style matching algorithms help you create harmonious outfits and discover new combinations you never thought of.

How e-Wardrobe Works

Transform your wardrobe management in just four simple steps. Our AI-powered platform makes styling effortless and fun.

01

Upload Your Clothes

Take photos of your clothing items or upload existing images. Our AI automatically categorizes and tags each piece.

What Our Users Say

Sarah Johnson
Fashion Blogger

"e-Wardrobe has completely transformed how I organize my closet. The AI suggestions are spot-on and I've discovered so many new outfit combinations I never thought of!"

New York, NY

Michael Chen
Tech Professional

"As someone who travels frequently, e-Wardrobe helps me pack efficiently and ensures I always have the right outfits for different occasions. It's a game-changer!"

San Francisco, CA

Emily Rodriguez
Marketing Manager

"The analytics feature is incredible. I can see exactly what I wear most and make smarter shopping decisions. It's saved me so much money!"

Austin, TX

David Kim
Student

"Perfect for college students on a budget. The app helps me maximize my wardrobe and always look put-together without spending a fortune."

Lisa Thompson
Event Planner

"Planning outfits for events is so much easier now. The seasonal recommendations and event-specific suggestions are incredibly helpful."

James Wilson
Consultant

"The color matching feature is amazing. I've learned so much about color theory and my outfits look more professional and cohesive."
